DR. DAVID R. SCHULER
Superintendent

Dear Parent,

MICHELLE DOWLING
Principal

In 2005, Max Schewitz died without warning from a hidden heart condition. He was just 20. Now, the Max Schewitz Foundation's Heart Smart EKG screening helps find at-risk children so they can seek treatment and not share Max's fate.

SCOTT MCDERMOTT
Associate Principal

Screening will be offered on WEDNESDAY, FEBRUARY 14th to all Prospect High School students.

GREG MINTER
Associate Principal

- Testing includes an EKG for all participants.
- Students selected by the cardiologist will also get an echocardiogram on test day **at no cost**.
- Only students with permission will be tested (online or oral on test day).
- Testing costs \$15 per student, but is free for students who are registered with the school to receive free or reduced lunch.
- Please register your student online at <http://www.heartsmartekg.org/PHS> or on our website, www.heartsmartEKG.org. Because the heart changes over time, even previously tested students should register for testing.

- Testing is conducted during students' PE classes in private booths. Accommodations will be made for students who do not have PE so testing is available to everyone.
- Every effort is made to respect privacy and modesty. Testing takes place in individual booths, and boys are tested separately from girls.
- Cardiologist Eli Lavie, MD oversees all aspects of testing and interpretation.
- Results are confidential and are shared only with parents within 3 weeks after testing.
- Copies of the actual test are given to parents who register by the early deadline of January 31, 2018. Parents requesting a copy of the actual test after that incur a \$10 handling fee.
